

INDEX

- Absorption of dilute glucose solutions,** 565
Acetone and butyl alcohol: formation of, 557
Acetylcholine: the vagal hormone, 447
Adrenalin: hemagglutination by, 454
Age and susceptibility to scarlatinal toxin, 182
Agglutinin production: effect of changes in the central nervous system on, 384
Air-conditioning apparatus for use with oxygen tent, 284
Allergic reaction of central nervous system, 554
Alpert, R. H.: Avertin, 449
Alpert, S.: A study of antilytic sera, 383
Aluminum intravenously injected: the fate of, 455
Alvarez, W. S.: Present day problems in gastro-enterology, 557
Amoss, H. L.: Undulant fever, 89
Anaerobic infections and serotherapy, 181
Anderson, W. E.: Relation of diet to fat deposition, 107
Anemia: treatment of secondary, 91
Anencephaly diagnosed before birth, 355
Anesthesia: spinal, 449
Anesthetics: new method of testing local, 454
Anhydremia: in burns, 376
Anorexia: caused by lack of vitamin B, 455
Anterior superior iliac spine: epiphysitis of, 159
Antibacteriophagic sera: autohemotherapy with, 453
Antibody production: antigenic state and, 388
 extirpation of the antigenic depot and, 455
Antibody response: following specific vaccine therapy, 568
Antigenic depot and antibody production: extirpation of, 455
Antigenic state and antibody production, 383
Antigens of intact and bacteriophage cells, 388
Antilytic sera, 383
Antistaphylococcal substance: thermostable, 453
Aorta: patent ductus arteriosus and infectious processes in, 483
Appendicitis, 185
 history of therapy of, 443
Archibald, E.: Surgery in pulmonary tuberculosis, 90
Argentaffin cells in tissues, 452
Arterial wall musculature in dynamics of circulatory system, 566
Arthritis: rheumatoid, 559
Autohemotherapy with antibacteriophagic sera, 454
Avertin, 449
 toxicology of, 446

B. coli found at postmortem examination, 388
Bacon and the Royal Society of London, 298
Bact. pullorum: toxin production of, 556
Bacteria from organs of man at autopsy, 556
Bacterial mutation, 556
Bacteriophage: air dissemination of, 556
 distribution of diphtheria, 423
 from filtrates derived from heated spore suspensions, 555
Bankroft, F. W.: Phlebitis and thrombosis, 90
Beaumont, William, 444
Beers, D. N.: Transplantation of larval amphibian eyes, 195
Bile acids: effect on the blood sugar content, 456
Bingham, H. C.: Behavior of mountain gorillas, 377
Bird-Acosta, I.: Effect of histamine on blood sugar of rabbits, 195
Birth injuries: motor reeducation in, 411
Bishop, C. C.: Rate of absorption of cerebrospinal fluid in dogs, 195
Blake, E. M.: Yale's first ophthalmologist —The Reverend Peter Parker, M.D., 387
Blood fat: effect of emotional states on, 441
Blood lipoids following passage of blood through kidney, 453
Blood picture of normal laboratory animals, 63; 169; 267; 359; 481; 547
Blood-pressure: effect of renal reduction on, 453
 high and low, 93
Blood sugar content: effect of bile acids on, 456
 effect of ernutin on, 454
 effect of morphine addiction and withdrawal on, 564
 effect of yeast extracts on, 196
Blood sugar: effect of histamine on, 195
Blood supply: changes produced by localized drafts of air, 341
Blumer, G.: Patent ductus arteriosus and infectious processes, 488
Boyce, F. F.: Subcutaneous injection of yeast extracts in rabbits, 196
Brain: cortex of microcephalic, 454
Breck, C. A.: Replantation of the eye in the albino rat, 196
Bronchiectasis and lung abscess: 78 cases of, 456
Burack, E.: Glucose tolerance in vitamin B deficiency, 553
Burn, C. G.: Allergic reaction of the central nervous system, 554
 Isolation of bacteria from the organs of man at autopsy, 556
 Experimental production of postmortem invasion, 563
Burns: significance of anhydremia in, 376
Burr, H. S.: "Disciplines", 151
Butyl alcohol: Biological formation of, 557
Calcium chloride in intestinal tuberculosis, 87
Cancer organization in Europe, 583
Cannon, A. B.: Eczema in children, 92
Cannon, W. B.: Mysterious emotional increase in the heart beat, 375
Carlson, E. R.: Motor reeducation in birth injuries, 411
Carmody, J. T.: Epiphysitis of the anterior superior iliac spine, 159
Carrier problem, 21
Cary, M. K.: Electrolyte changes accompanying plasmapheresis, 377
Central nervous system: allergic reaction of, 554
Central nervous system disease: relation of liver to, 456
Central nervous system: effect on agglutinin production, 384

- Cerebrospinal fluid: rate of absorption of, 195
 Chemical aspects of immunity reactions, 555
 Chemical mechanism of gastric secretion, 564
 Children: symptoms of emotional states in, 441
 Chu, F. B.: Antigenic state and antibody production, 383
Ciona: Cytology of centrifuged eggs of, 378
 Circulation: studies on collateral, 442
 Circulatory system: Arterial wall musculature in dynamics of, 566
 Clarke, C. C.: Henri de Mondeville, 459
 Clinical Congress of the Connecticut State Medical Society, 89
 Cobb, J. R.: *B. coli* found at postmortem examination, 388
 Codman, E. A.: Shoulder injuries, 93
 Cogswell, Mason Fitch: 3
 Collateral circulation: studies on, 442
 Colvin, M. G.: Air dissemination of bacteriophage, 556
 Conant, J. S.: Deafferentation studies on the respiratory mechanism, 388
 Connecticut State Medical Society, Clinical Congress of, 89
 Connor, J. J.: effect of glycine on blood sugar in rabbits, 196
 Convalescent serum in poliomyelitis, 447
 Cordotomy, 83
 Cortex of microcephalic brain, 454
 Cortex: "Release" phenomenon of motor, 441
 Couch, F. H.: Optic nystagmus without adequate stimuli, 384
 Psychological factors in optic nystagmus, 182
 Cowgill, G. R.: Effect of histamine on secretion of gastric pepsin, 183
 Cowles, P. B.: Recovery of bacteriophage from heated spore suspensions, 555
 Cunningham, R. D. M.: Preparation of solutions for hypodermoclysis, 563
 Cutler, E. J.: The principles of surgery—their theory and practice, 554
 Cyclic phenomena in mammary glands, vagina and uterus, 197
 Cytodieresis: cause of unequal, 378
 Darrow, D. C.: Electrolyte changes accompanying plasmapheresis in dogs, 377
 de Aberle, S. B.: Cyclic phenomena in the mammary glands, vagina, and uterus of guinea pigs, 197
 Deafferentation studies on respiratory mechanism, 388
 D'Errico, A. P.: Chronic subdural hematoma, 11
 d'Herelle, F.: Bacterial mutation, 556
 The carrier problem, 21
 Diabetes mellitus: surgery in, 90
 Diaphragm: hernia through esophageal opening of, 165
 Dickar, L.: Antibody response following specific vaccine therapy, 563
 Diet: relation to fat deposition, 107
 Digestive disorders, 94
 Digitalis in pneumonia, 92
 Diphtheria bacteriophage: distribution of, 428
 "Disciplines", 151
 Diverticula: duodenal, 505
 Dodge, R.: Psychological factors in optic nystagmus, 182
 Doroszka, V. A.: Temperature changes following the ligation of vessels, 563
 Ductus arteriosus: patent, relation to infectious processes, 483
 Duesberg, J.: The cause of unequal cytodieresis, 378
 DuMortier, J. J.: Intestinal tuberculosis, 241
 Dunbar, H. F.: Optic mechanism in *Carassius auratus*, 564
 Duodenal diverticula, 505
 Dusser de Barenne, J. G.: "Release" phenomenon of the motor cortex, 441
 Dyskinesia, 39
 Eagan, E. F., Jr.: Pathology of subdural hematoma, 197
 Eczema in children, 92
 Electrolyte changes accompanying plasma-pheresis, 377
 Electrometric serology: Determinations on syphilitic sera, 515; 556
 Emotional Basis: physical symptoms on, 441
 Emotional increase in heart beat, 375
 Emotional states: effect on blood fat, 441
 Encephalitis, non-suppurative: accompanying chicken-pox, 183
 Epiphysitis of anterior superior iliac spine, 159
 Ernutin: effect on blood sugar, 454
 Erythema infectiosum: epidemic of, 453; 566
 Ether, 448
 Experimental method: rise of, 283; 299
 Extrapleural compression with rubber bag, 235
 Eye: replantation of, 196
 Eye structure: origin of sympathetic tone of, 554
 Eyes: transplantation of, 195
 Faculty appointments and promotions, 560
 Farr, L. E.: Electrometric serology. Determinations on syphilitic sera, 515; 556
 Fat: effect of emotional states on blood, 441
 Fat deposition: relation of diet to, 107
 Feeding: infant, 379
 Ferris, Harry Burr: 205
 Finley, K. H.: Neuro-anatomy of a case of respiratory failure, 564
 Allergic reaction of the central nervous system, 554
 Flynn, J. E.: Healing of wounds of the spinal cord, 384
 Foerster, O.: Cordotomy, 83
 Fox, E. G.: Need for the Visiting Nurse Association, 446
 Fox, J. C.: Psychological factors in optic nystagmus, 182
 Fractures: treatment of, 557
 Frank, R. T.: Sex cycle in the female, 445
 Fulton, J. F.: Effect of emotional states on blood fat, 441
 Neurological basis for thirst, metabolism, sex and sleep, 285
 Origin of the term "Physiology", 59
 Rise of the experimental method, 283; 299
 Gallagher, J. R.: Changes in the nervous system and agglutinin production, 384
 Gall-bladder: Effect of peritoneal irritation and of vagal neurotomy on, 464
 Gall-bladder and heart: Association between disease in, 495
 Gas, 448
 Gastric secretion: Chemical mechanism of, 564
 Gastro-enterology: Present day problems in, 557
 German, W. J.: Chronic subdural hematoma, 11
